NOTE: Students who register for CHASS Connect choose to enroll in the year-long program. Registering signals your agreement to remain in the program for the entire year. However, under certain conditions students are released from the program. These conditions are athletes with conflicting practices, documented medical conditions, documented financial problems, documented changes in college, and documented conflict with normative progress towards graduation. If you meet any of these conditions, please see the CHASS FIRST Director and you will be released. If you do not meet any of these conditions, you will need to complete this petition and deliver it to the CHASS FIRST Director during his office hours or through an appointment made 24 hours in advance. Please be advised that we believe it is the student’s responsibility to engage with the course and its requirements in order to make the program work for them. CHASS FIRST creates community. A student’s engagement in her/his program creates unique connections which affect everyone in the program.
